Academic Project Experience

Desktop Application – “Kang Bubur” Sales System (VB.NET, MySQL, Crystal Report) December 2025

- Analyzed system requirements and designed system models using UML and ERD
- Developed a cashier application with menu management and transaction features
- Implemented sales reports and receipt printing using Crystal Report

Business Process Analysis – Greasycle E-Business Project May 2026

- Identified business problems and designed solution strategies using prioritization methods
- Developed user personas and user flows to support user, partner, and admin needs
- Designed a UI/UX based mobile application prototype for used cooking oil waste management

Mobile Application – POS System for Bekalmu June 2026

- Conducted interviews and gathered system requirements with the business owner
- Developed a mobile based Point of Sales (POS) application using Android Studio
- Designed transaction and operational management features to improve sales process efficiency

Web Application – Greasycle (PHP MVC, HTML, Tailwind CSS, JavaScript) June 2026

- Developed an integrated web platform for used cooking oil waste management
- Designed a responsive and user friendly interface using Tailwind CSS
- Connected users, partners, and admins within the digital waste management workflow

Publications

Journal Article (Published) – Implementation of Object Oriented Analysis and Design Method in the “Sayang Warga” Public Service Information System Application

January 2026

Jurnal Informatika dan Teknik Elektro Terapan, Vol. 14 No. 2, April 2026

DOI: 10.23960/jitet.v14i2.9140 | [Link Artikel](#)

- Analyzed system requirements using the OOAD method
- Identified functional and non-functional requirements through requirement analysis
- Designed system models using UML (use case, activity, sequence, and class diagrams)

Journal Article (Published) – A Systematic Literature Review of Trends, Challenges, and Future Directions of Chatbots in Digital Healthcare Services

December 2025

Teknofile: Jurnal Sistem Informasi, Vol. 3 No. 12, Desember 2025

E-ISSN: 3026-4936 | [Link Artikel](#)

- Conducted a systematic literature review on chatbot development in digital healthcare
- Identified trends, challenges, and AI-based development opportunities
- Analyzed the role of chatbots in improving healthcare accessibility and efficiency

Committee Experience

National Seminar on Technology and Information Systems (SITASI)

Secretariat Division Staff

September 2025

- Supported seminar administration, including participant data and attendance management
- Assisted participant registration and guest reception

Langkah Sosial dan Peduli Alam Bersama Sistem Informasi (LASKARA)

Event Division Staff

August 2025

- Participated in planning and executing social and educational activities
- Served as Master of Ceremony (MC) to guide the event flow

Ramadhan Berbagi Bersama Sistem Informasi (RADIASI)

Equipment Division Staff

March 2025

- Prepared and managed event equipment and logistics
- Organized equipment distribution and arrangement during the event
